EXAMINERS AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Claim 22, line 6, after first "operator" ---and the---has been added; claim 27, line 1, "the door" has been changed to ---a door---, since no antecedent basis is present for "door". Abstract, line 5, after "closed" --- With the door closed power may be connected and disconnected. With the door open the handle may be used only to disconnect power. --- has been added.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: For claim 22, while patents such as Christensen use handles to control power, with doors open and closed, none of them use "first and second coupling mechanisms, each used to rotate the operator" This also applies to claims 1 and 12 and provides an unobvious distinction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Neil Abrams at telephone number 571-272-2089.
